

CV Luciano Pirone

Personal information

Date of birth: [REDACTED] | Sex: [REDACTED] | Nationality: [REDACTED]

Address: [REDACTED]

Telephone number: [REDACTED] Mobile number: [REDACTED]

e-mail address: luciano.pirone@cnr.it

pec address: luciano.pirone@pec.it

Job position

Researcher at Institute of Biostructure and Bioimaging (CNR), Via Tommaso De Amicis, 95, 80145 Naples (Italy) since 30/09/2019.

Education and training

- Nov 1998 – Mar 2004 Degree in Industrial Biotechnology (vote 110/110) University of Naples Federico II, Faculty of Biotechnological Sciences. Study of genetic systems for the expression of the putative cellulase SsCels from *Sulfolobus solfataricus*.
- Jun 2005 – Jun 2007 Master: Institute of Biostructure and Bioimaging (CNR), Via Tommaso De Amicis, 95, 80145 Naples (Italy). STRUIM - Training of specialists in the field of biostructures and bioimaging.
- Oct 2006 – Oct 2009 Doctor of Philosophy (PhD) in Molecular Biotechnology University of Naples Federico II, Faculty of Biotechnological Sciences. PhD thesis title: "Medulloblastoma tumour suppressor factor RENKCTD11: structure and function based design and development of new compounds for therapeutic interest".
- Sep 2018 – Set 2024 National Scientific Qualification in Biochemistry (Sector 05/E1 II section).

Macrosectors

- LS Macrosector
- LS1 Molecular Biology, Biochemistry, Structural Biology and Molecular Biophysics
- LS1_1 Macromolecular complexes including interactions involving nucleic acids, proteins, lipids and carbohydrates
- LS1_2 Biochemistry
- LS1_8 Structural biology

Bibliometric indicators

(data source Scopus)

Total publications: 59

Total Citations: 752

H-index: 17

Guest editor for a special issue entitled "Structure-Function relationship in proteins correlated with the insurgence of diseases" on Section Macromolecules on International Journal of Molecular Sciences on July 2020. Deadline March 2022. (<https://www.mdpi.com/journal/ijms/sections/macromolecules>).

Reviewer for the following international journals: International Journal of Molecular Sciences, COVID19, Biomolecules, J. Biotechnology, Healthcare.

Participation in national and international scientific projects

- 06/12/2007 He parteciped as a member of research unit in the financed project L.R. N.5 Regione Campania" coordinated by Dr Emilia Pedone with a title "Antioxidant systems of the peroxiredoxins thermophilic microrganisms and their applications".
- 20/08/2014 He parteciped as a member of research unit in the financed project FFC#20/2014 coordinated by Prof. Eliodoro Pizzo with a title "Identification and characterization of LPS-neutralizing human peptides: potential tools to control inflammation in cystic fibrosis lung disease".
- 22/02/2012 - 22/02/2016 He parteciped in the financed project RBAP114AMK coordinated by Dr Michele Saviano with the title "Rete integrata per la Nano Medicina (RINAME)".
- 01/01/2018 - 28/02/2022 He engaged as a participant in "Ciro – Campania Imaging Infrastructure for Research in Oncology".

Personal skills

Pirone's research is strongly focused on the structure-activity-function relationship in proteins relevant to biomedicine and biotechnology, aiming at the understanding of the molecular determinants underlying their biological activities. He has gained knowledge of structural and molecular biology methodologies. He has acquired the expertise in several techniques useful for the study of the macromolecular structures: such as static and dynamic light scattering, circular dichroism and spectrofluorimetry. Structural studies are generally associated with a biophysical and functional characterization of the samples under study; in doing this he has exploited techniques such as UV-VIS spectroscopy, fluorimetry, isothermal titration calorimetry and microscale thermophoresis. Furthermore, he has gained the know how also in advanced methodologies of molecular biology in order to prepare ad-hoc point mutants to gain further insights into the protein biological functions.
