Interests and present fields of work

Research in forest ecophysiology is intended to produce biological knowledge that can be used for sustainable forest management.

The forest ecophysiology research program focuses on:

- The relationship between terpenes and the attack of pest and diseases.
- Characterization of less susceptible terpene chemotypes to the attack of insects and fungi.
- The effect of abiotic stresses on biosynthesis of volatile terpene compounds.
- Variation of ecophysiological responses to biotic and abiotic stresses.

Degree and post-degree experience

1985 Graduated in Agricultural Science, University of Firenze Italy. 1982 with 110/110. His thesis concerned utilization of forestry biomass for production of chemicals.

1988 CNR fellowship at Department of Forestry, University of Florida, Gainesville, Florida, USA, July 1988 - February 1989 to perform studies on terpenes as biochemical markers in forest genetics under the supervision of Prof. A. Squillace and Prof. T. White and to conduct experiments in plant ecophysiology under the supervision of Prof. J. Johnson.

1989 CNR fellowship at Laboratoire d'Amelioration des Arbres Forestiers, INRA, Pierrotton (Francia), November 1989 - January 1990 to perform studies on terpenes as biochemical markers in forest genetics under the supervision of Prof. P. Baradat.

1991 N.A.T.O-CNR fellowship, at Department of Forestry, University of Florida, Gainesville, Florida, USA, , June 1991 - August 1991 to perform studies on terpenes as biochemical markers in forest genetics under the supervision of Prof. A. Squillace and Prof. T. White and to conduct experiments in plant ecophysiology under the supervision of Prof. J. Johnson.

1996 CNR fellowship at Department of Entomology, University of Wisconsin, Madison, Wisconsin, USA, June 1996 to perform studies on terpenes as biochemical markers in forest genetics under the supervision of Prof. K. Raffa.

1997 CNR fellowship at Department of Forestry, University of Florida, Gainesville, Florida, USA, April 1997, to perform studies on terpenes as biochemical markers in forest genetics under the supervision of Prof. A. Squillace and Prof. T. White and to conduct experiments in plant ecophysiology under the supervision of Prof. J. Johnson.

1997 N.A.T.O-CNR fellowship, at Department of Entomology, University of Wisconsin, Madison, Wisconsin, USA, June 1997 - August 1997 to perform studies on terpenes as biochemical markers in forest genetics under the supervision of Prof. K. Raffa.

Career

1986-2005 Researcher (permanent position, III level) at Istituto di Genetica Vegetale (IGV), Area di Ricerca CNR di Firenze.

2005 Senior researcher (II level) at CNR-IGV, Area di Ricerca CNR di Firenze.

Other professional experiences

1987-1989 Responsible of the research line "Study of genetic variation in terpene composition of forest plants by gaschromatography" of C.N.R. Istituto di Genetica Vegetale

1993-1998 Responsible of the research line "Genetic variation and physiological adaptability in forest plants" of C.N.R. Istituto di Genetica Vegetale

1999-2003 Responsible of the research line "Analysis of the ecophysiological and biochemical responses of the plant to biotic and abiotic stresses" of C.N.R. Istituto di Genetica Vegetale

2004-2005 Responsible of the research macroline "Plant interactions with biotic and abiotic stresses present in the surrounding environment" of C.N.R. Istituto di Genetica Vegetale

2004-200 Responsible of the Joint Laboratory for Gaschromatography of plant metabolites between C.N.R. Istituto di Genetica Vegetale Firenze and Perkin-Elmer Italia S.p.A

1998-present Coordinator of the Working Group on "Terpenes and Ecology" of the Societa' Italiana di Selvicoltura ed Ecologia Forestale (SISEF)

2012 Employment contract for 2 months at the Ionicon Analytic GmbH., in the framework of FP7-IAPP Marie Curie PTR-TOF Nr. 218065, July - August 2012.

2015-2021 Responsible of the Laboratory for the Analysis and Research in Environmental Chemistry (ARCA) of C.N.R.

Teaching experience

Courses

2004-2005 Course of Gaschromatografy for the analysis of essential oil in plant species used in Pharmacopoeia at the Faculty of Pharmacy, University of Firenze, ITALY.

1999-2000 Coordinator of the Course Wood technology at the Faculty of Agricultural and Forestry Sciences, University of Firenze, ITALY.

1999-2000 Course of Wood chemistry extractives at the the Faculty of Agricultural and Forestry Sciences, University of Firenze, ITALY.

1998-1999 Course of Wood chemistry extractives at the Faculty of Agricultural and Forestry Sciences, University of Firenze, ITALY.

Mentor training

Supervisor of High School, M.S., Ph.D and Postdoc students.

Editorial activity - evaluator expertise

Referee for several international journals in the field of plant science and chromatography: Forest Genetics, Journal of Chromatography A., Annals of Forest Science, Plant Biosystems, Biochemical Systematics and Ecology, Tree Physiology, Journal of Essential Oil, iForest

Associate Editor of the on-line journal Forest@

Component of the Component of the Advisory review board of the on-line journal iForest-Biogeosciences and Forestry

Grants

1989 One year bilateral project CNR-INRA (Laboratoire d'Amelioration des Arbres Forestiers Pierrot (Francia) to study the variation in terpene composition of *Pinus halepensis* Miller.

1990 One year bilateral project CNR- Department of Forestry, University of Florida to study the physiological and biochemical mechanisms of the plant in response to environmental stress.

1991-1995 Partecipant in the project RAISA-CNR dal titolo "Processi idrologici, ecofisiologici ed ecogenetici in boschi di faggio" occupandosi dell'analisi dei meccanismi fisiologici in risposta al variare dei fattori ambientali

1997-2001 Partecipant in the project of European Commission "Global, physiological and molecular responses to climatic stresses of three Mediterranean conifers", Contract INCO-FORADAPT C18-CT97-0200.

1997-2001 Partecipant in the project of European Commission "Identification of ecophysiological adapted indigenous *Milicia excelsa* genotypes for sustainable tropical timber production", Contract INCO - DC ERB3514PL961724.

1997-2001 Partecipant in the project of European Commission "Adaptation and selection of mediterranean *Pinus* and *Cedrus* for sustainable afforestation of marginal lands", Contract FAIR CT95-0097

2001-2004 Coordinator of Workpackage "Terpene Analysis" and Workpackage "Molecular Markers" within the European Commission project "Quality of life and management of living resources resistance of spruce to root and butt rot disease" (RESROBS Contract QLRT-2000-00241).

2001-2007 Partecipant in the international project of "Conifer defense against insects and phytopathogenic fungi - CONDEF"

2004-2005 Coordinator of the project "Caratterizzazione e produzione di oli essenziali e di estratti di natura polifenolica di ecotipi toscani della flora mediterranea " contract between A.R.S.I.A Regione Toscana and IGV-CNR.

2005-2009 Partecipant in the project of European Commission "Developing best practice for seed sourcing of planted and natural regeneration in the neotropics", Contract n. FP6-2002- INCO-DEV-1 SEEDSOURCE.

2006-2008 Partner in the project "OLICANTO - Olio di Canapa Toscano" contract between A.R.S.I.A Regione Toscana and Legambiente Toscana Onlus.

2006-2010 Partecipant in the project of European Commission "Evolution of trees as drivers of terrestrial biodiversity", Contract n. GOCE n. 016322 - EVOLTREE.

2007-2010Partecipant in the project "Incremento della quantità e della qualità di pine e pinoli in pino domestico. Strategie di conservazione ed impiego di materiale migliorato ", supported by the Italian Ministry of Agricultural, Food and Forestry Policies

2008 Scientific Responsible of the project "B.O. 2007 - Sviluppo di prodotti innovativi da matrici floreali L.R. 32/99 art. 4", Contract between Azienda Regionale Veneto Agricoltura and IGV-CNR

2008 Scientific Responsible of the project "B.O. 2007 - Prodotti innovativi da matrici provenienti dalla Rosa di S. Antonio ", Contract between Azienda Regionale Veneto Agricoltura and IGV-CNR

2008-2009 Coordinator of the project "MELASUK - Utilizzo della varietà locale "Mela Rotella" per la produzione di succhi di frutta " contract between A.R.S.I.A Regione Toscana and IGV-CNR.

2008-2012 Coordinator of the project "OLIROTO - Olio essenziale di rosmarino toscano " contract between A.R.S.I.A Regione Toscana and IGV-CNR.

2012-2015 Partecipant in the project European Commission - 7 FP KBBE Programme: WATBIO Development of improved perennial non-food biomass and bioproduct crops for water stressed environments

2012-2015 Partecipant in the project "Assessing the impacts of invasive fungal pathogens and phytophagous insects on native plants, pathogens, phytophagous insects and symbionts " supported by the Ministry of Education, Universities and Research

Memberships to scientific societies

- Societa' Italiana di Selvicoltura ed Ecologia Forestale (SISEF).
