Subcontracting

Participants in
the project

- Ensure best value for money (or lowest price) and avoid conflict of interests
- Subcontracting between beneficiaries is not allowed. Subcontracting to affiliates is generally not allowed either
- Estimated costs and tasks must be identified in the budget and in Annex 1
- Simplified approval procedure allowed (i.e. beneficiary flags the subcontracting at reporting stage) However, beneficiary bears the risk of rejection

E.g.: Testing described in Annex 1 as action task

- The beneficiaries are responsible for the proper implementation of the subcontracted action tasks by the  subcontractors (*proper quality, timely delivery, etc*).

There will be three main 'corporate' Model Grant Agreements (MGAs), on which Horizon Europe MGAs will be built:

1. A **'corporate general MGA'**, for grants which take the form of a budget-based mixed actual cost grant (i.e. a grant based on actual costs incurred, but which may also include other simplified forms of funding, such as unit costs or contributions, flat-rate costs or contributions, lump sum costs or contributions)
2. A **'corporate unit-based MGA'**, for grants which take the form of one or several possible types of unit contributions for covering the action implementation
3. A **'corporate lump sum-based MGA'**, for grants which take the form of one single lump sum contribution, broken down per work package and per beneficiary, for covering the action implementation
